- Softwarepark Hagenberg brand
- Strategic planning and development

Softwarepark Hagenberg

PIONEERS & TRAILBLAZERS

Softwarepark Hagenberg is a research, education and business location. As a spin-off of Johannes Kepler University (JKU) Linz, it was founded by Univ. Prof. Dr. Bruno Buchberger, and contributes significantly to innovation in Upper Austria.

The Softwarepark is distinguished by its state-of-the-art infrastructure, as well as a diverse network of experienced industry experts, young creative people and students who are eager for knowledge. This synergy in particular is a major part of the recipe for success.

As a location for constant innovation and continuous progress in the software field, Softwarepark Hagenberg is an ideal environment for regional and interregional IT projects. The strong umbrella brand Softwarepark Hagenberg and the dynamic network of research, education and business make Softwarepark Hagenberg a unique location full of opportunities that creates space for visions.

Amongst other things this lived synergy is visible throughout the Softwarepark Hagenberg event series. Focused on the annual theme, scientific topics are presented, explained and discussed together with well-known IT experts.

Factors for success

FOR CONSTANT INNOVATION & CONTINUOUS PROGRESS

Softwarepark Hagenberg is a communication and meeting hub, where people work, research, teach, learn and live.

The fusion of state-of-the-art technology with a picturesque natural environment and the combination of historic and contemporary architecture in a natural setting mean that it is an amazing place to live and study.

This lends Softwarepark Hagenberg a special quality and creates a working and living environment for future generations today.
